Implementation of mind map in real life.
Is it possible?
How?

How to solve the darkness problem in the village?

- Can we install a streetlight on the street?
- How can we implement the streetlight?

Where in the village should we start with streetlights?
Where are the most critical problems in the village?
Where are streetlights needed most?
WHERE
How can we implement the streetlight?
HOW
How to manage our fund?
How will we manage the electrician?
How to manage electricity?
STREET LIGHTING
WHY
Why do we need this?
Why should villagers support this project?
Why are streetlights important?
WHEN
When will we start our work?
When will the project officially launch?
When we communicate our local people?
WHAT
What is the primary objective of this project?
What is the source of fund?
What is our main problem with build this project?

Group Discussion

- How to Manage Our Fund?
- How to Manage Electricity for Street Lighting?
- When Will We Start Our Work?

How to Manage Our Fund?

Self-Funding

- *Limited Capacity*

Social Media Fundraising

- *Primary Focus*

Local Donations

- Businessmen
- Expatriates

How to Manage Electricity for Street Lighting?

- Getting electricity from electrics trees.
- Community-Based Sharing – Primary Approach

Initial Step:

- Try to convince them.
- If Permission is Denied

When Will We Start Our Work?

Problem:

- Capital

Immediate Action Plan:

- Self funding

Local Shop Support Strategy:

- Visit local shops

Post-Setup Plan

After completing the project:

- We will collect donations from the community.
- The money will be used to pay the remaining bill to the shop.

After collecting the initial funds and materials, we will be ready to start our work.

Let's take a look at the output of our street lighting project.

Thank you
